

Meet Me At Our Spot

Reagan Gwen

When I wake up
I can't even stay up
I slept through the day
I'm not getting younger
But when I'm older
I'll be so much stronger
I'll stay up for longer
Meet me at our spot

Caught a vibe (woo, woo)
Baby are you coming for the ride?
(The ride, the ride, the ride)
I just wanna look into your eyes
(Your eyes, your eyes)
I just wanna stay for the night night night

When we take a drive (woo, woo)
Maybe we can hit the 405
Hypnotized by the lights
Man, this must be the life

When I go to sleep
I can't even fall asleep
Something's got ahold of me
Feel it taking over me
But when I'm older I'll be moving onward
I just got a drunk text
Meet me at our spot

We caught a vibe (Yeah Yeah)
Baby are you coming for the ride?
(The ride, the ride, the ride)
When I look into your eyes
(Your eyes, your eyes)
I just wanna hold you all night (All night)

Maybe we can take a drive (Take a drive!)
Baby we can hit the 405
Hypnotized by the lights
Man this must be the life

Meet me at our spot
Got something I wanna show you
Meet me at our spot
They can't find us there

Meet me at our spot
Got something I wanna show you
Meet me at our spot
They can't find us there

Caught a vibe (woo, woo)
Baby are you coming for the ride?
(The ride, the ride, the ride)
I just wanna look into your eyes
(Your eyes, your eyes)
I just wanna stay for the night night night

When we take a drive (woo, woo)
Maybe we can hit the 405
Hypnotized by the lights
Man, this must be the life
